**DECLARATION OF INVENTORSHIP AND COMMON OWNERSHIP
OF CLAIMS IN APPLICATION**

Box Issue Fee

Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

This Declaration of Inventorship and Common Ownership of Claims in Application is being submitted concurrently with the enclosed Amendment and Request To Delete an Erroneously Named Inventor in a NonProvisional Application (hereinafter "Amendment and Request").

EXPLANATION OF FACTS:

On March 27, 1998, the above-identified patent application was filed with the USPTO. An unsigned Declaration and Power of Attorney for a United States Patent Application (hereinafter "Unsigned Declaration") was filed with the above-identified application. This Original Unsigned Declaration listed Mark Hayden as an inventor. A Notice to Filing Missing Parts of Application – Filing Date Granted (hereinafter "Notice to File Missing Parts") was mailed on April 8, 1998. The Notice to File Missing Parts indicated that among other things, that the oath or declaration was unexecuted. A response to the Notice to File Missing Parts was mailed on June 8, 1998. After the filing of the above-identified application, Applicants patent counsel determined that Mark Hayden was not a joint inventor on the above-identified application and that Mr. Hayden was incorrectly

listed as a joint inventor on the Unsigned Declaration. The signed Declaration and Power of Attorney for a United States Patent Application (hereinafter "Signed Declaration") mailed with the Response to File Missing Parts on June 8, 1998, did not list Mark Hayden as an inventor.

Applicants patent counsel received a filing receipt in connection with the above-identified application on April 14, 1998. This filing receipt listed Mark Hayden as an inventor. Applicants patent counsel mailed a Request for a Corrected Filing Receipt (hereinafter "Request") on June 9, 1998. The Request stated that there was an error in the area of the "Applicants" and that reference to "Mark Hayden, Ingleside, IL" should be deleted. On July 28, 1998, Applicants patent counsel received a corrected filing receipt. However, this corrected filing receipt still listed Mark Hayden as an inventor. In response to this "Corrected Filing Receipt", Applicants patent counsel filed a "Communication" on August 3, 1998, referencing the Request and asked that the correction requested in the Request be made. On September 2, 1998, Applicants patent counsel received a second Corrected Filing Receipt. Mark Hayden was not listed as an Applicant on this second filing receipt.

An assignment for the above-identified application that was recorded on June 11, 1998 at reel 9247 and frame 0899. The assignors were Patricia A. Billing-Medel, Maurice Cohen, Tracey L. Colpitts, Paula N. Friedman, Michael R. Klass, Lisa Roberts-Rapp, John C. Russell and Stephen D. Stroupe. The assignee was Abbott Laboratories.

In the Office Action mailed on January 4, 2000 in the above-identified application, the Examiner indicated that the Signed Declaration was defective because it did not contain a cross-reference to any related, earlier filed applications. The Examiner pointed out that this was contrary to page 1 of the specification that contained a specific reference to U.S. application serial no. 08/829,754. The Examiner requested a new declaration.

In response to the Office Action, a Corrected Declaration and Power of Attorney for a United States Patent Application (hereinafter "Corrected Declaration") was filed on May 10, 2000. This Corrected Declaration contained the cross-reference to U.S. application serial no. 08/829,754 requested by the Examiner. However, the Corrected Declaration also contained a mistake relating to the inventors. Specifically, the Corrected Declaration

mistakenly listed Mark Hayden as an inventor. The mistake in the Corrected Declaration was discovered upon a review of the above-identified file in preparation for the payment of the issue fee mailed on November 27, 2002 in connection with the above-identified application. The enclosed Amendment and Request seeks to correct this mistake.

OWNERSHIP OF CLAIMS:

The claims of the present application and the claims of the application at the last time the claimed invention was made were commonly owned by one assignee, Abbott Laboratories.
